## Legend:

Lucky Twenty<sup>3</sup>

Pitiable Three<sup>4</sup>

Pitiable Three Eligible<sup>4</sup>

## Notes:

1. The best 3 of 6 races will count towards a racer's total CRP.
- 2a. The racer who accumulates the most CRP in the F1 League will be crowned F1 Series Champion.  
2b. The racer who accumulates the most CRP in the Rookie League will be crowned Grand Prix Rookie of the Year.  
2c. The racer who accumulates the most CRP in the Indy Car League will be crowned Indy Series Champion.
3. The top 10 racers from the F1 League will compete for the most coveted title of F1 Final Champion. In addition, the top 6 racers from the Indy Car League and the top 4 racers from the Rookie League will compete for the worthy title of Indy Final Champion<sup>10</sup>. Collectively, they shall be known as the Lucky Twenty.
4. The Pitiable<sup>5</sup> Three will be randomly selected from those non-Lucky Twenty racers in the F1 League (2 racers) and the Indy Car League (1 racer) who have raced 2 or more events in the GP series. They will be tasked with organizing the Grand Prix Final on September 12, 2007.
5. Adjective: Pitiable - Inspiring mixed contempt and pity.
6. Average RPs is based on the best 3 races only.
7. MoJo reflects the racer's momentum. It is the difference between the RPs in their last race and their Average RPs. Look out for racers with high positive MoJo!
8. Personal Adjustment Factor (PAF) is simply the racer's average RPs from the previous season, divided by 100. If a racer participated in less than 2 events last season, then their PAF is arbitrarily assigned to .75. PAF is only used for calculating PRPs for the Indy Car League.
9. Personal Ranking Points (PRPs) are calculated the same as RPs, however are further expanded by dividing the racer's RPs by her PAF. This has the effect of normalizing all racers' results in the Indy League, according to how they performed in the previous season. Hence, all things being equal, racers should average 100 RPs per race ...but some racers will be improving from last year and they will be rewarded with RPs higher than 100.
10. For the Indy Final only, the 10 finalists will have their PAFs<sup>8</sup> recalculated based on their 2007 performance. These PAFs will be used to adjust running time and determine the Indy Final Champion.
